### NEW CHANGES:

Please be aware that as of JULY 1<sup>st</sup>, 2024 the water allotment of **25,000** gallons monthly will be REDUCED to **18,000** gallons.

### How much water do I use at home each day?

Estimates vary, but, on average, each person uses about 80-100 gallons of water per day, for indoor home uses. Are you surprised that the largest use of household water is to flush the toilet, and after that, to take showers and baths? That is why, in these days of water conservation, we are starting to see toilets and showers that use less water than before.

Use our online form to get an estimate of your own water use at home. You can go to <https://www.usgs.gov/special-topics/water-science-school/science/water-qa-how-much-water-do-i-use-home-each-day>
