It is springtime!

Time for flowers to start blooming, birds to start singing and the people of Stagecoach to start working in their yards again!

Please remember- when applying fertilizers and pesticides, **MORE is not always better.** These items contain hazardous chemicals that can travel through the soil and contaminate the groundwater. A local nurse can provide information on natural ways to control lawn, garden and tree pests.

Make sure to check your drip and sprinkler systems for any leaks before leaving them to run. The smallest leaks can cost the most!

Although the weather lately has been wonderful, we never know what Nevada has in store! If you do feel the urge to get out and water, **always remember to unhook those hoses to prevent possible freezing.**
